

# **Operationally Responsive Space Access Mission**

**Develop, demonstrate, and transition technologies to enable responsive, reliable and affordable access to space**

## **Approach**

### ***Develop Technologies***

- Understand AFSPC Requirements for “aircraft-like” space launch operations
- Identify Viable Vehicle Concepts That Meet User Requirements
- Determine and Prioritize Key Technologies Required For Vehicle Concepts
- Produce Roadmaps To Plan and Coordinate Development Activities

### ***Demonstrate and Transition Technologies***

- Advocate Technology Roadmaps
- Monitor Execution Of Technology Development Program
- Demonstrate and Transition Technologies To AF Product Centers And Industry
